My Dearest Marie,

How truly saddened about the heartbreaking news of your loving husband Eric. He truly was a kind and gentle man. I always loved being his and your company from the time we met at Air Canada and thereafter. So very disappointed that Corvid has kept us from visiting for 2 years. My heartfelt condolences to you Marie and to your family. May he rest in eternal peace. Sending you my love and my most sincere sympathy. He will always remain in my heart and memory.

Love you,  
Annie

All I remember he was a true respectful gentleman. When I purchased the MAC computers he was the Big brain behind it. We were like a big family at C&SS.

Condolences to the family for the big loss.

Marie,

How sad that Eric has passed. My deepest condolences to you and your family Marie. I have so many really fond

memories of working with Eric. John and I also enjoyed our times visiting with you both after you had retired. I remember Eric as being a true mentor. He was so willing to share his knowledge with the group. I remember all the laughs we had as well - isn't it great when you can honestly say that your work was fun! Eric was not only a co-worker, he was a true friend, and he will be remembered fondly by many of us I am sure.

In sympathy,  
Lorraine

Dear Marie,  
My heart goes out to you and your family in this time of great loss. I have many fond memories of Eric, not the least of which was the patience he showed when dealing with my many questions about MAC. Since you were a team at Air Canada, I can still picture you coming by his office at the end of each day to meet up for your home time journey together. Your closeness was inspiring to many. May all the wonderful memories you made together be a source of comfort to you in the days ahead.  
With love and heartfelt condolences. Shirlee

Marie

My condolences. I never worked closely with Eric but I know he took his role very seriously and was well respected. Although not working together we had the occasional chat and laugh together. I know that he will be missed.
